ADMINISTRATIVE & LEADERSHIP APPOINTMENTS

University of Oregon

Founded in 1876, the University of Oregon is the state's flagship institution. It is one of only two Pacific Northwest members of the AAU and is also a member of the Association of Pacific Rim Universities. The University of Oregon is located on Kalapuya Ilihi, the traditional indigenous homeland of the Kalapuya people. The UO enrolls approximately 24,000 students (19,500 UG and 3,600 Grad) and offers 172 degree programs (77 UG and 95 Grad) through its nine academic units. Under the leadership of President Karl Scholz and Senior Vice President and Provost Chris Long, Oregon's strategic plan, [Oregon Rising](#), outlines four goals: 1) enhance pathways to timely graduation, 2) become a leader in career preparation, 3) create a flourishing community, and 4) accelerate the University of Oregon's impact on the world through growing the research expenditures, faculty honors, awards, and citations, and societal impact through a focus on key scholarly signature areas, including Youth Behavioral and Mental Health.

College of Education

The College of Education (COE) is the University of Oregon's highest-ranking college, due in part to its consistently strong research and outreach portfolio, exceptional academic programs, and the widespread adoption of educational innovations developed by COE faculty and staff throughout the state and nation. The COE is ranked #8 Best Public Graduate School of Education by U.S. News 2024 Rankings and #3 Best Special Education Program. The COE is home to 3 academic departments and 14 research and outreach centers. Annual research expenditures were \$67 million in FY24. The COE has more than 500 faculty and staff and support 1500 students (50% UG) in 3 UG majors and 18 graduate programs. The COE is nationally accredited by AAQEP and has several other nationally accredited graduate programs in the college.

RESEARCH FOCUS

My research involves early identification and treatment of childhood developmental and behavioral problems, with an emphasis on the multiple systems of care that support children (e.g., families, schools, healthcare). Within this broad framework, I focus on three specific lines of research: (a) family-centered interventions involving parent training, education, and support, (b) key school transitions such as kindergarten and middle school, and (c) reducing risk and promoting well-being.

TEACHING FOCUS

My teaching interests at the graduate level include professional preparation of school psychologists and special educators in the areas of behavioral assessment, consultation, behavioral health, developmental psychopathology, and professional development through internship supervision. My undergraduate teaching interests include research methods and child development.
